# Steni Vision Idea Catalogue

Steni Vision Idea Catalogue consists of suggestions for patterns where we have developed a base file. All Steni Vision files are built digital – and are not scanned. This ensures full flexibility when it comes to enlarging, tilting and changing colours individually on the patterns. These patterns need some file work and approval by test print before they are ready to be produced.

We do also offer the possibility for you to develop complete custom graphics via Steni Vision Custom. That possibility is not shown in this overview, but you can see examples of it by clicking [HERE](#).
